

SACHINTHA PRABASHANA

Full Stack Developer | Software Engineering Undergraduate

Email: sachinthaprabashana2003@email.com | Phone: +94 76 27 17 290 | Matara, Sri Lanka

| LinkedIn: sachintha-prabashana | GitHub: sachintha-prabashana | Portfolio: prabashana.me

PROFILE SUMMARY

Results-driven Full Stack Developer with a deep focus on Software Architecture and system design. Expertise in building robust applications using Java (Spring Boot, Hibernate) and the MERN stack, with a strong emphasis on Clean Code and SOLID principles. Proven experience in implementing Layered Architecture and Microservices to ensure high scalability and maintainability. Currently advancing technical depth in Cloud-Native technologies, specifically Docker and Kubernetes, to build and manage containerized, production-grade solutions.

EDUCATION

Graduate Diploma in Software Engineering. (GDSE), Institute Of Software Engineering (2024-2026)

Advanced Level – Physical Science Stream , Thelijjawila Central College (2021-2023)

TECHNICAL SKILLS

- Languages: Java , JavaScript, TypeScript, Python, SQL
- Frontend: React, React Native, Tailwind CSS, Bootstrap, JavaFX
- Backend: Spring Boot, Spring Security, Node.js, Express
- Databases: MySQL, MongoDB, Firebase
- DevOps: Docker, Kubernetes, Git
- Tools: Postman, Figma

PROFESSIONAL EXPERIENCE

IJSE – Software Engineering Trainee

Sep 2024 – Present

- Architected and developed enterprise-level web applications using Java (SpringBoot), focusing on building scalable and maintainable architectures to support high-traffic systems.
- Engineered React front-ends with efficient state management for seamless user experiences.
- Implemented secure REST APIs using JWT and Spring Security for robust access control.
- Integrated MySQL and MongoDB databases ensuring data integrity and optimized performance.
- Streamlined workflows using Docker containerization, Git , and Maven for rapid deployment.

PROJECT EXPERIENCE

SkillBadge – AI-Powered Skill Verification & Gamified Learning Ecosystem

- Developed full-stack MERN platform to automate technical skill validation and gamified developer learning.
- Engineered AI-driven interviews using Google Gemini AI with speech-to-text and automated scoring reports.
- Integrated Piston API for secure multi-language code execution (50+ languages).
- Built high-concurrency real-time systems using Socket.io for collaborative discussion forums.
- Implemented JWT authentication with multi-provider OAuth (Google/GitHub) and RBAC.

GearUp – Professional Equipment Rental Platform (Mobile Application)

- Developed scalable B2C mobile application using React Native (Expo) and TypeScript.
- Implemented Firebase Authentication for secure user management and session handling.
- Integrated Stripe API for secure online payment processing.
- Built identity verification workflow using Cloudinary for image upload and storage.
- Implemented real-time booking management, QR confirmations, and automated notifications.
- Integrated Google Maps Platform and Expo Location for logistics and store navigation.

AutoCert – Unified Vehicle Marketplace & Inspection System

- Developed enterprise vehicle inspection & marketplace platform using Spring Boot and MySQL.
- Implemented strict layered architecture (Controller-Service-Repository).
- Designed intelligent auto-assignment algorithm for dynamic inspector allocation.
- Integrated Spring Mail for automated digital inspection reports and notifications.
- Implemented WebSockets (STOMP) for live chat and instant image sharing.
- Secured platform using Spring Security and JWT with advanced RBAC.
- Integrated Cloudinary and ImgBB for secure cloud image storage.

ZenithMind – Therapy Center Management System (Desktop Application)

- Architected enterprise-grade desktop system using strict Layered Pattern (Controller-Service-DAO).
- Implemented RBAC for Admin and Receptionist roles with BCrypt password hashing.
- Modeled complex One-to-Many and Many-to-Many relationships using Hibernate ORM and MySQL.
- Integrated JasperReports to generate automated PDF invoices and clinical reports.
